Most recent proprietary projects

QUIZ.ZEIT.DE FOR ZEIT ONLINE, SEPTEMBER 2013 – PRESENT

Lead Developer for RESTful backend powering the daily quiz application of major German weekly newspaper. (Python, Postgresql, Celery)

BOOTSTRAPPING BACKEND FOR [VIMCAR.DE](http://vimcar.de), SEPTEMBER 2013 – SEPTEMBER 2015

Created initial backend application for the then young startup including deployment automation, release management, development of the onboarding process for new developers and being responsible for production services during their first year of operation. (Python, Postgresql, Celery, Ansible)

TRIBASPACE.COM, AUGUST 2009 – PRESENT

My longest running project with largest code base. Initial co-development of backend and frontend for online showroom and B2B trading platform for the fashion industry, followed by ongoing maintenance, refinement, as well as system administration. (Python, Postgresql,

Open Source Involvement

I'm an avid user of Open Source Software since 1993 and have started contributing back since 2003. I regularly publish small to medium tools to <https://github.com/tomster> and have become fairly proficient in making production ready releases of Software.

BSDPLOY, MARCH 2014 – PRESENT,

lead developer of a tool to provision, configure and maintain FreeBSD containers, <https://github.com/ploypground/bsdploy>

BRIEFKASTEN, JULY 2012 – PRESENT

Lead Developer of secure dropbox for whistleblower submissions, currently used in production at ZEIT ONLINE, Spiegel Online and Tagesspiegel, <https://github.com/tomster/briefkasten>

PLONE CORE DEVELOPER, APRIL 2006 – NOVEMBER 2011

Active contributor to the Plone CMS (Python)

PLONE FRAMEWORKTEAM MEMBER, NOVEMBER 2007 – MAY 2009

Active Member (<https://plone.org/community/teams/framework>)
